Do you get the right service?

How do you know which services to use. Today not only one but many can provide the same service and therefore make it more difficult for you to choose:

- Is it the correct services ?
- Is the lead time correct ?
- Is it the right price (do I pay too much) ?
- Should I get running up-date/ information ?

...Early Feedback Gives Your Customers Confidence...

The Khanaphat Group Pre-Investigation and Pre-Testing or technical service at Manufacturer' s Premises service determines compliance with IEC/EN/UL/CE or other standards while your product is still in the design and development phase, enabling you to identify areas needing modification at an early stage. This information can avoid potential non-compliance, reduce the need for costly and time-consuming redesign work, and increase the certainty of ultimate compliance, giving prospective customers greater confidence in your product.

...Helping You Win Orders by Speeding Up Time to Market...

Reduced cycle time and greater probability of compliance can help you get your product to the market early, a critical success factor in gaining a competitive edge and winning orders ahead of your competitors. Pre-Investigation and Pre-Testing or technical at Manufacturer' s Premises service can also reduce the time required for subsequent full investigation, further speeding up the development cycle to enable you to meet demanding shipment schedules.

...Lower Cost...

The Khanaphat Group Pre-Investigation and Pre-Testing or technical service at Manufacturer' s Premises service. In this way you can both save of time and money.

...With Clearer Requirements...

If you are uncertain of the compliance requirements of a new product, or how to meet IEC/EN/UL/CE or other standards, **The Khanaphat Group** professional engineering can clarify the applicable IEC/EN/UL/CE or other standards early in the development process, enabling you to design the product for full compliance and reduce the risk of later problems.
